

# Monitoring Progress

In this plan I will make notes about the following:

- What testers said about each product
- Things that took longer than expected
- Things that went well
- Why you made any changes to my plan
- My overall thoughts and opinions on the product

Task	Comments
Plan	Each of my testers thought that my product was well worked at and I laid it out neatly. Although my website actually took longer than I recorded on my plan, and my movie and presentation went according to plan, I think that each of my tasks went well because I enjoyed doing them and I got them all completed. I had to also make changes to my plan as my website took longer which meant that I had to change the dates from the website on down. Overall I think that the topics went fine and I got them all completed successfully.
Gathering assets	The testers said that my assets was good and well presented, I think so too, we had to make tables and add a lot of information in it, nothing really took long it all went to plan and turned out well, my plan stayed the same for this task. My thoughts and opinion is that I worked hard and got my gathering assets completed.

<b>Web pages</b>	<p>The testers for this topic thought that my website was eye catching and attracting and easy to understand, although it took me longer than I expected to finish it because I spent a lot of time to make it really good. During the time I was doing my website it all went well and I had no problems, no changes to the plan on this task overall I think that it all went well and I have all the information added that I need and all the image also.</p>
<b>Movie</b>	<p>Those testers that marked my movie thought it was really good and all the information and music and images was good and set out neatly. I made a couple of changes to my plan on this topic it took just a little longer than I had planned. Other than that it all went as well I had said I wanted it to work, Overall I think that it looks good and is eye catching and the viewers will find it is an interesting movie to watch.</p>
<b>Presentation</b>	<p>My testers thought that my PowerPoint was eye catching and stood out really well and I didn't put too much information in it and just enough pictures and a nice video of the sites of Portstewart. The testers liked that too. Although it took a bit longer than expected it still went fine, I</p>

	<p>had to make a change to my plan as I said that it took longer than expected. Overall I think it went quite well and I liked the way I laid it out also am pleased with it.</p>
<b>E-portfolio</b>	<p>My tester thinks that my E portfolio is attractive and really colourful and eye catching and the links are easy to use also. It did take a bit longer than I had written in my plan. That was just because the time got delayed a little for myself, other than that I think the rest went well, I had to make changes to my plan as I got kept behind a bit, overall I like the e portfolio because it is nice and colourful and I have had a lot of compliments on it.</p>
