

End of Project Review

The project as a whole		
Achievement	If I did this project again, I would do this differently:	What my reviewer or teacher said:
I put all the main tasks on my plan.	I wouldn't have put as many main tasks on the plan I would have just put some of them on it.	<p><u>About my plan!</u></p> <p>They said my plan was giving good and neatly laid out also, but some of the timings weren't given me enough time to complete the task which would of meant that I would have been rushing although, I didn't think that I was being rushed, although the reviewers saw that in a way I was. But thought that maybe I should have had more colour in the plan.</p>
I put most of the sub-tasks on my plan.	I would have put all the sub tasks on the plan this would give me a better guidance as to what part of the project am at.	
I kept to the timings on my plan.	I had to change some of the timings as I never kept to my routine of the plan on the dates specified.	
I finished the project on time.	I never got it all completed, but by the deadline date I had most of it done.	
I checked my progress regularly.	I would have made sure that I checked it regularly because I never did it that much on this project.	
I changed my plan When something took longer or less time than planned.	I would have made it a routine to make sure that I went to my plan each time I changed a time set or a date set.	<p>About how I monitored progress!</p> <p>I think that my monitoring of progress is laid out well and I had to change a couple of things on my plan as I made a few changes on my monitoring, but I checked all my progress regularly.</p> <p>"One of my reviewers reckons that using the monitoring of progress sheet was a good idea to monitor the progress.</p>
I chose good test users	I would have thought about the people that I was choosing to be my testers more thoroughly.	
I chose good reviewers	I think that if I were to do this again I would of choose different reviewers as I don't think my reviewers were very honest.
