

Feedback on Logo.

Andy

It is very appropriate for the event. It symbolises the wheelie race event. It is very appropriate logo. The colours and the font are all very affective. They are easy to see for example they stand o u t and the font is easy to read. Over all it is a very good logo.

Steve

I think that the logo is very appropriate. The colours are very effective and stand out. The colours on the writing help it to stand out and the font makes it easier to read. Over all it is a good logo
