

Feedback on my T-shirt

Nicholas

- Like the layout of the front of the t-shirt
- The text is too big
- Don't like the colour of the footprints
- Could do them all 1 colour
- Where do the footprints go?
- Same again footprints should be all 1 colour
- I like this 1 better than the other 1
- Like the way the writing goes round the back of the neck

Stuart

- I like the way that the footprints go up
- The logo looks better on this side
- I like the footprints
- Like the Aztec design
- Not greatly cooperative with London- but fits with the spirit of things
- Good as the Olympics is designed for all cultures

Sue

- Text needs to be smaller
- Maybe move text up to the logo
- Really like the footprints
- I like the footprints
- The logo could be moved over because it doesn't look right there
- I like this design as well
- Like the logo
- Could make the image a bit bigger to fill the back of the t-shirt

Rita

- Really like the footprints
- The logo looks really good
- It could be a bit bigger
- Don't really like the text around the neck
- I think the logo on the back big is a good idea
- Like the colour

Ann

- Like the look
- The footprints are good but it looks like someone has run over you so could go on the back of the t-shirt.
- Like the logo on the front
- Don't like the big images on the back it don't have to same effect with out the "Get Set" in the centre
- The larger the image the less clear the result with out the get "Get Set" logo
