

- I organised one last year for my year group. It was a brilliant idea, it was really successful and everybody wanted one.
- This is a unique opportunity to buy a cheap, easy to use multimedia yearbook. For the sake of a 'fiver' you can obtain something really really priceless.
- I was really worried when I heard that a yearbook was coming out in the form of a DVD as even though I really wanted to get one, I thought it was bound to be really expensive. However it is really cool because it only cost £5 and it is really professional. It's worth getting one.
